## Clockaudio to Exhibit With QSE at InfoComm MEA 2016

**October 31, 2016 – Waterlooville, Hampshire, United Kingdom** - Clockaudio, a global leader in pro-AV microphone technologies based in the UK and with offices in North America and Asia, is gearing up for its next appearance at InfoComm Middle East & Africa, December 6-8, 2016.

This year, InfoComm Middle East & Africa (MEA) marks its 6th anniversary, the show will be held at the Dubai World Trade Center and is expected to attract over 200 hundred exhibitors and well surpass the 15,000 visitors that were in attendance last year. On the show's website, Richard Tan, Executive Director of InfoComm Asia remarks, "As a standalone exhibition, InfoComm Middle East & Africa 2016 will draw the firm focus of industry stakeholders and technology end-users. The new scenario will be a conducive setting for visitors to explore and examine ideas in depth with exhibitors – ideas that will take their businesses to the forefront of their respective industries."

For this 2016 event, Clockaudio will be co-locating its booth with QSE, LLC – a regional distributor for Clockaudio and a globally recognized leader in the design and manufacture of professional audio/video system solutions.

Rod Geary, International Sales & Marketing Manager for Clockaudio comments, "We're looking forward to working alongside of QSE at the show and to interacting with clients, integrators and potential prospects at InfoComm MEA. Many times it is in this kind of setting that unique project challenges are discussed and we have the opportunity to talk about our customization capabilities and move new relationships forward." For more information about the show, visit <http://www.infocomm-mea.com/>.

### **About QSC, LLC**

QSC uniquely leverages power amplification, loudspeaker, digital signal processing (DSP) and digital mixer engineering resources to deliver products and systems that far outperform the sum of their parts and that provide compelling solutions for professional installed, portable, production and cinema sound customers worldwide.

# **CLOCKAUDIO**

QSC expertise is also evident in its advanced manufacturing and quality control processes. The company manufactures in its 81,000 square foot, state-of-the-art facility, located in Costa Mesa, California. Utilizing a compliment of demand planning, parts procurement, operations and logistics, computer-controlled precision assembly, and rigorous testing and control, the QSC facility is designed with build-to-order flexibility, giving the company unprecedented ability to respond to customer needs while keeping both parts and finished goods inventory at well-maintained levels. Select partners in Asia provide additional manufacturing. For more information about QSC visit <http://www.qsc.com/>

## **ABOUT CLOCKAUDIO**

For over 20 years, Clockaudio has been dedicated to manufacturing innovative pro-audio products. With corporate headquarters located in the United Kingdom and offices located in North America (Montreal, Canada) and Asia (Singapore), Clockaudio is led by a talented team of audio specialists dedicated to quality, service and innovation.

On a global level, audio professionals actively seek out and recommend Clockaudio for its reputation as a trusted and responsive manufacturer and its customer driven approach to audio solutions. Central to this is the in-house research and development that Clockaudio consistently reinvests in which allows clients to explore customized prototypes and develop specific briefs in partnership. Consultants and contractors alike help to drive Clockaudio's product development process and appreciate the opportunity to be involved in the engineering process and final solution. The ability to customize is just one of the many factors which makes Clockaudio clearly different. For the latest information on our new products, news and projects, follow Clockaudio on twitter and like them on Facebook.
