sparkAV Ignites Boardroom Design with Clockaudio at ole Majorly Indie's Toronto Office

December 20, 2016 – Waterlooville, Hampshire, United Kingdom - Clockaudio, a global leader in pro-AV microphone technologies based in the UK and with offices in North America and Asia partnered with SparkAV to create a new state of the art boardroom for ole Majorly Indie's corporate office in Toronto, Canada.

ole is the world's fastest growing rights management company. Founded in 2004, the company has operations in Toronto, Nashville, New York, London and Los Angeles. Boasting a team of over 100 experienced industry professionals, the firm is focused on acquisitions, creative development, and worldwide rights management and is widely considered as the first choice music source for creators in all media.

To keep up with the hip, relevant vibe of the clients they serve, ole worked with renowned AV integrator sparkAV to find the industry's best AV solutions to execute the boardroom renovation on a tight deadline. To ensure the best audio quality in the boardroom, sparkAV insisted upon the installation of Clockaudio's C303 microphones to meet the unique needs of the office space.

The sparkAV design team noted that each of the Clockaudio C303 microphones were designed with a ceiling enclosure locking grommet and 2.5 meter cable for easy height adjustment, which worked perfectly for the needs of ole's renovations. The C303 product features three high quality Cardioid capsules covering a 360 degree pick up pattern. Each independent capsule is RF immune, and captures approximately 120 degrees and is optimized for speech intelligibility. In addition, the C303 is equipped with a RJ45 to enable a fast connection.

Of the project, Andrew Wilder, sparkAV Site Lead, Sr. Technician and Audio Expert commented, "*I recommended the c303 mics to the sales team as Clockaudio is at the top of the game for mics and they are the best sounding mics to date.*"

The project was a complete success and under the direction of sparkAV, Clockaudio's microphones helped to create a high quality, beautifully finished work space for ole to continue its creative musical genius.

About ole Majorly Indie
