

Product Feature of the Month

CLOCKAUDIO DANTE TRANSPORTER
CDT100 MK2

WHY YOU SHOULD INCLUDE A CDT100mk2 IN YOUR NEXT PROJECT:

- Simplifies installation
- Potential cost saving of 30% or more on Labour and material
- Compatible with all Clockaudio microphones and control devices
- Now includes extra pins per logic port for the magnetic read switch of the CRM-S series and more
- New RGB LED control provides unmatched level of customization when paired with Clockaudio's RGB LED touch switches
- You can daisy chain 6x CDT100mk2 out of one PSU and one Network Cable giving you a total of (24) microphones + (30) control devices on a single network cable back to the rack
- Fully backward compatible to previous Clockaudio Bicolor LED Touch Switches
- Dante is the preferred audio networking solution that has been adopted by more pro-audio AV manufacturers than any other networking technology

CLOCKAUDIO
PROFESSIONAL MICROPHONE SYSTEMS
Clearly different.

The Clockaudio Dante Transporter is an advanced professional Dante communication product which combines audio and control transport using network-based Dante protocol. By taking advantage of the advanced Dante technology and based on the high performance and pre-configurable hardware platform, this product transfers audio and control signals via widely used Ethernet for perfect sound quality.
