Clockaudio Enters the CDT -100 Dante Transporter into Commercial Integrator's Best of Infocomm Awards

May 22, 2017 – Waterlooville, Hampshire, United Kingdom, Clockaudio Ltd, a global leader in pro-av microphone technologies based in the UK and with offices in North America and Asia, is proud to submit their CDT-100 Dante Transporter as a leading candidate for the Best of Audio Conference Solutions in Commercial Integrators annual award program. The contest and award program will be held during InfoComm, June 14 – 16, 2017 in Orlando, Florida at the Orlando County Convention Center.

The annual contest runs concurrently with Infocomm, the professional AV industry's landmark tradeshow that brings AV professionals from around the world together for a week of education and exhibits.

The Commercial Integrator Best of Infocomm Awards program recognizes the most noteworthy solutions for integrators. After careful consideration prior to and at the show, winners are chosen by a panel of industry experts, integrators and the editors of Commercial Integrator. "Commercial Integrator takes pride in focusing on content that can help integrators become more efficient and more profitable," says Tom LeBlanc, editor-in-chief. "This award program is a great way to focus on solutions meeting that criteria on display at InfoComm."

Of the product entered in this year's show, Robert Moreau, Managing Director for Clockaudio NA states, "We submitted the CDT-100 Transporter as an incredible conference solution that helps significantly reduce labor costs and time for integrators." He adds, "The CDT-100 was designed in response to the need to streamline data and power cables for boardrooms, conference rooms, and video conference rooms and the product reduces cabling requirements from multiple and individual microphones from the conference table to the AV cabinet."
