Clockaudio to Showcase its Technologies at Integrated Systems Europe's 2016 Show

February 5, 2016 – Waterlooville, Hampshire, United Kingdom – Clockaudio, a global leader in pro-av microphone technologies based in the UK and with offices in North America and Asia, announces it will be exhibiting at the Integrated Systems Europe Show February 9- 12, 2016.

ISE attracts a global audience and the annual event has grown from 120 exhibitors and 3,500 visitors, to last year's record-breaking 12th year that saw ISE 2015 welcome more than 1,000 exhibitors and almost 60,000 visitors through the doors of the Amsterdam RAI. This year marks the first year that the event has extended to four days to accommodate the tremendous interest from attendees walking the massive show floor.

Robert Moreau, Managing Director for Clockaudio North America comments, "This show brings us some of the best and brightest minds in system integration and design. There is always a great synergy between us as the manufacturer and the design and integration professionals that attend the event." He adds, "We look forward each year to the chance to meet face to face with the people that are committed to excellence in design to discuss our technologies and the many ways we can customize solutions for our clients." For more information and for a complete demonstration of the many Clockaudio technologies visit their booth during ISE in Stand 11-364.

ABOUT CLOCKAUDIO

For over 20 years, Clockaudio has been dedicated to manufacturing innovative pro-audio products. With corporate headquarters located in the United Kingdom and offices located in North America (Montreal, Canada) and Asia (Singapore), Clockaudio is led by a talented team of audio specialists dedicated to quality, service and innovation.

On a global level, audio professionals actively seek out and recommend Clockaudio for its reputation as a trusted and responsive manufacturer and its customer driven approach to audio solutions. Central to this is the in-house research and development that Clockaudio consistently reinvests in which allows clients to explore customized prototypes and develop specific briefs in partnership. Consultants and contractors alike help to drive Clockaudio's product development process and appreciate the opportunity to be involved in the engineering process and final solution. The ability to customize is just one of the many factors which makes Clockaudio clearly different.
