**FOR IMMEDIATE RELEASE**

## Clockaudio Announces Zoom Mute Sync Compatibility

May 31, 2021 – Vaudreuil-Dorion, Canada - Clockaudio, a global leader in pro-AV microphone technologies based in the UK and with offices in North America and Asia, is proud to announce that its CUI-2 USB microphone interface now has Zoom mute sync compatibility.

Zoom Video Communications, Inc. is a leading provider of frictionless enterprise video communications. The pairing of the Zoom platform with Clockaudio microphones will enable remote warriors everywhere to attach professional quality audio microphones with the CUI-2 USB Interface, to seamlessly integrate with the video platform.

When used with the CUI-2 and when connected within the Zoom desktop app, Clockaudio's current features enable users to press the mute button on the microphone, which in turn will mute the participant, and show up on the Zoom desktop app as muted. The reverse is also possible where muting in the Zoom desktop app will mute the CUI-2 and the mute status will be reflected on any LED buttons connected to the CUI-2.

The CUI-2 mute toggle can be configured as a latching mute or as a push to mute. There is no need to grab the mouse and search the the mute icon on screen, all muting functions can happen at the microphone itself, with the simple touch of a button.

Streamlining function is just one of the ways that Clockaudio is clearly different. The Zoom mute sync compatibility is just the latest news to come out of Clockaudio, and the company promises more features and benefits to come in the near future.

For more information, or to learn how to add your Clockaudio microphone to your Zoom room, contact the tech experts at Clockaudio at [support@clockaudio.com](mailto:support@clockaudio.com).

### **ABOUT CLOCKAUDIO**

For 25 years, Clockaudio has been dedicated to manufacturing innovative pro-audio products. With Corporate Headquarters and Manufacturing located in the United Kingdom and offices located in North America (Montreal, Canada) and Asia (Singapore), Clockaudio is led by a talented team of audio specialists dedicated to quality, service and innovation.

On a global level, audio professionals actively seek out and recommend Clockaudio for its reputation as a trusted and responsive manufacturer and its customer driven approach to audio solutions. Central to this is the in-house research and development that Clockaudio consistently reinvests in which allows clients to explore customized prototypes and develop specific briefs in partnership.

Consultants and contractors alike help to drive Clockaudio's product development process and appreciate the opportunity to be involved in the engineering process and final solution. The ability to customize is just one of the many factors which makes Clockaudio clearly different.
